GARIPLAST GARI 43 FREEWAY.

AT A GLANCE

GARIPLAST GARI 43 FREEWAY.

GARI 43 FREEWAY embodies the strength and durability of classic fiberglass hulls while retaining a timeless, contemporary design. This yacht is presented in outstanding condition following a meticulous full refit, making her immaculate and ready to cruise immediately.

The engine room has undergone an extensive mechanical overhaul. In 2024, both engines received a complete rebuild of the power units, including new cylinder liners and pistons, together with turbocharger servicing. The exhaust manifolds were replaced in 2023, while all heat exchangers were professionally cleaned. Fuel system reliability has been further enhanced through the complete cleaning of the fuel tanks with the installation of inspection hatches, replacement of the fuel lines in 2025, and renewal of the propeller shaft bearings.

Comfort on board and overall aesthetics have also been brought up to the highest standards. In 2025, the yacht received brand-new exterior cushions, while in 2024 the interior sofa upholstery, wall panels, and headliner were completely renewed. The Bimini top was also replaced, and a powerful Hi-Fi entertainment system with dedicated amplifier and subwoofer was installed in 2025. At the helm, navigation is supported by a Raymarine touchscreen GPS chartplotter installed in 2024, together with a new windscreen plexiglass.

The most recent upgrades completed in 2026 include an elegant teak finish on the extended swim platform, a complete new battery bank, the installation of underwater LED lights, and a full hull polish that restores the yacht's original shine. The result is a vessel in excellent condition, meticulously maintained in every detail and ready to set sail.

Externally, the hull sides shine thanks to a professional polish, complemented by newly replaced sunshades and an extended teak-laid swim platform completed in 2026.

This yacht was built by the historic Gariplast Shipyard, a respected Italian boatbuilder active mainly during the 1980s and 1990s. Gariplast earned a reputation in the mid- to upper-market segment for its solid construction, excellent seakeeping qualities, and generous onboard living spaces.
